Best fantasy romance books of all time

Jewelyn Butron Nothing feels as good as spending a few hours curled up with a book you can't put down. It goes double — no, do this triple — for romance novels. You immerse yourself in a world where anything can happen and, better yet, usually do so. Before you know it, you devour page after page, eager for the next glance stolen, witty jokes, and caressing twist twisted. If you've been a fan of romance novels since you read Pride and Prejudice (and, of course, dreamed of your own Mr. Darcy), then you know how hard they are to ask and not just because one of your hands is busy doing... other things. Are you getting ready for a hot night, because these are the 25 best romance novels of 2019: Someone else likes to disappear into a fantasy read when the leaves begin to change? Yes, so do we. Fortunately, autumn means books on books - it's the time of year when publishers bless us with a bountiful crop of stories perfect for reading under the covers. From gloomy and scary to downright magical, we've put together 12 new titles that will take you away this season. These choices have stellar ratings on Goodreads and our bookish approval stamp. So light your favorite fall candles, plish that blanket (before your cat claims it), and crack open one of those worlds that are like recreation for your brain. Sharing on PinterestShare on PinterestWe are huge fans of this bests selling author's previous books, especially Sky in the Deep. In her latest novel for young adults, which has already garnered 4.5 stars since its release in September, she welcomes readers into a world made dangerous by the sea and those who enjoy it. Fable, 17, daughter of a powerful trader in the Narrows, has spent her life on the ocean and must now find her place, and her family, while trying to survive a world built for men. It is filled with adventure, the darkest corners of a treacherous sea, a bit of romance, and Adrienne Young masterfully designed atmospheric parameters and characters. We're ready to dive. Order now through Bookshop.Cemetery Boys by Aiden ThomasShare on PinterestAiden Thomas paranormal YA debut has already received an impressive 4.5 stars via thousands of notes on Goodreads. The main character, Yael, is a trans teenager determined to prove his gender to his traditional Latin family. When his family finds it difficult to accept it, he tries to summon the ghost of his murdered cousin in order to prove himself and free his cousin's ghost. But instead, he accidentally summons the bad boy resident of the school and can not get rid of him ... but maybe he doesn't want to? Order now by Bone Shard Daughter by Andrea StewartShare on PinterestWhen the queen of fantasy Sarah J. Maas scrambles a book you take note. It is a book of revolution, of mystery, of barred doors opened in the storm of change, and of a strong female advance that must learn the forbidden art of the magic of bone chips in order to recover its power. It's a scary form of magic in a suspenseful plot that's ideal ideal reading with Halloween around the corner. Order now via Bookshop.Piranesi by Susanna ClarkeShare on PinterestFrom the author of the popular Jonathan Strange and Mr Norrell comes a new novel (with a number of pages not as intimidating as his previous work) set in a dreamlike alternative reality. Piranesi's house contains endless rooms, endless corridors, and thousands of statues (I get house of leaves vibes). The word is that you'll also love this one if you're a fan of Madeline Miller Circle (heck yes) or Neil Gaiman's The Ocean at the End of the Lane.We give this one extra points to have a striking jacket with a foiled glittering copper design (look below it at the bare hard cover and you'll also find a foil-embossed surprise). Order now through Bookshop.To Sleep in a Sea of Stars by Christopher PaoliniShare on PinterestThis you fall into the science fiction/space opera genre, and you might recognize the author of his fantasy novels. Remember Eragon, the first book in a series about the dragons that stormed the world in the early 2000s? Fun fact: Christopher Paolini was 19 years old when Eragon was published. After years of research and perfecting his craft, he is back with his first adult novel. This story of a young woman on a mission to an uncolonized planet has chapters divided into bite size subsections, making it much easier to stay a little reading time if you're busy or in a reading fall - even if it's just for a few minutes before your head hits the pillow. Order now via Bookshop.The Left-Handed Booksellers of London by Garth NixShare on PinterestIn this new fantasy for young independent adults (great if you want to enjoy a book without being sucked into a long series), we are entering an alternative London 1983.It is a kind of British urban fantasy with mythical bookstores, mystery, humor, and loads of action. One critic says: This is my favorite kind of fantasy - a secret society operating behind an everyday city [...] My only complaint is that I wanted a longer book. Order now by Bookshop.A Deadly Education by Naomi NovikShare on PinterestIf this book was a recipe, we would be inclined to say it has a hint of Ghostbusters, a pinch of Stranger Things, a Hogwarts smidgen for older but darker teens... and perhaps a small drop of deadly instruments? But in truth, this story is really something quite his own. It takes place in a school that has infinite kinds of monsters hiding in the shadows and waiting to strike, some walls that simply come out in the void, no teachers, and floors Turn down as students get closer to their graduation battle with monsters at the lower level. (Spoiler: Most children don't live long enough to take this horrible final exam.) The narrator is extremely cynical and sarcastic, and from the first page, you are on a ride with her take-no-shit personality. There are also some really fascinating aspects to the magic system. We are already looking forward to the second installment. Order now via Bookshop.The Invisible Invisible d'Addie LaRue by V.E. SchwabShare on PinterestImagine a world in which no one remembers who you are, but you get to live forever. These are the terms of an agreement that Addie LaRue struck in France in 1714.Until one day, after 300 years, she entered a bookstore and a young man remembers her name. Oh, the premise, the cover, the tale of sweeping through the centuries and continents. You took us into your web, V.E. Schwab.This mesmerizing story is meant to be a classic, and the one we're betting on will be idealized for cinema (like many of its other bestsellers). Order now by Bookshop.Magic Lessons by Alice HoffmanShare on PinterestDo you believe there is a bit of witch in us all? Pick up the midnight margaritas! Alice Hoffman, an extraordinary spinner of magic words, wrote Practical Magic in 1995 (it was adapted into a film in 1998) and gave us a prequel called Rules of Magic in 2017 - it follows aunts in the 1960s. In October, she released Magic Lessons, a prequel that goes back even further, where Owens' matriarchal lineage began — the 1600s. Its pages are dotted with sentence jewelry that are worth stopping and admiring. If you haven't read the other books yet, don't worry. All three can stand alone, but your experience will certainly be enriched by reading them all. Order now via Bookshop.The Once and Future Witches by Alix E. HarrowShare on PinterestWhile the jacket blurbs are enough to attract you, this book will have you under its spell after the first pages. This story radiates with well-drawn characters, wonderful witch spells, and a story of three fierce sisters as they fight for equality in 1893.Their quest for the right to vote hits a thread that is disturbingly relevant to our present day. Once we broke the cover, we didn't want to stop. Order Now by Bookshop.The Last Druid by Terry BrooksShare on Pinterest This book is kind of a big deal. This is the conclusion of the recent fall of the Shannara subseries - but it is also the last book in the series - together - Shannara, which was 29 pounds and 43 years in the making. Whether you want to go back and start with the first book of the original trilogy that started all this in 1977 (The Sword of Shannara) or you just want to read this series of four more recent books, The Last Druid is a legendary release for many fans. Dive in for a dose of classic epic fantasy. Order through Bookshop.Why will you stop in the fall when you can also prepare for winter? Keep an eye out for these awesome winter readings hitting the shelves soon! King of the Rising by Kacen CallenderThis December, the second novel in the Islands of Blood and Storm series will be released — get ready for Queen of the Conquered while you wait. This series takes place in a fantastic caribbean-inspired world in which a revolution swept the islands. If you're looking for light and fluffy, it may not be your thing, but it's a powerful story of colonialism, conquest and revenge - one that R.F. Kuang Kuang fans Tasha Suri will want to get her hands on. One reviewer writes: This series is not like your other fantasy series. This series is graphic, brutal, radical, sharp, emotional, and a reflection of racism [...] It's been a long, long time since I read a fantastic tale that subverted my mind and left me speechless. Release Date: December 1, 2020Commander via Bookshop.The High Republic series (January and February 2021)Another reason to look forward to 2021: There will be many more Star Wars coming your way! The Upper Republic will be a subseries of novels for young adults that takes place under the sub-era of the Upper Republic of the Age of the Republic. This means that they will be fixed 200 years before the events of the Skywalker saga and 800 years after the fall of the Old Republic. With seasoned Star Wars writers such as Charles Soule and Claudia Gray penning these new tales, you can be sure they're worth clicking on this pre-order button. Release date: January 5 and February 2, 2021Order via Bookshop.Naomi is the book publisher and copy publisher at Greatist. She enjoys focusing on all things books, beauty, wellness and mental health. She is also a fantastic writer ya and bookstagramr. You can find her (and her cat) @avioletlife. @avioletlife.
